Datatilsynet oppretter tilsynssak etter NRKavsløring

Røntgengiganten Unilabs lot rumensk klinikk få tilgang til titusener av norske undersøkelser. Nå vil Datatilsynet finne ut om nasientopplusningene ble godt nok sikret.

Datatilsynet håvet inn på personvernsbrudd i fjor

I år er det fem år siden personvernforordningen (GDPR) fortsatt synder både offentlige og private virksomheter. L i fjor ut samlede overtredelsesgebyrer på nærmere 100 mi for brudd på personvernlovgivningen.

Datatilsynet har vedtatt et gebyr på 65 millioner kroner til datingappen Grinde

- Vår konklusjon er at Grindr har utlevert personopplysninger om brukerne til tredjeparter for adferdsbasert markedsføring uten rettslig grunnlag, sier Bjørn Erik Thon, direktør i Datatilsvnet

Datatilsynet har fattet vedtak om overtredelsesgebyr n millioner kroner til Trumf. Bakgrunnen for gebyret er at Trumf-medlemmer kunne registrere andres kontonummer på medlemsprofilen og dermed skaffe seg tilgang til andres handlehistorikk

isten 2020 ble Stortinget utsatt for datainnbrud og Datatilsynet varslet i januar et gebyr på to illioner kroner for manglende sikkerhetsnivå. Vi h å vurdert Stortingets merknader og sendt vedtak tholder det varslede gebyret

Datatilsynet gir Nav 5 mill. kroner i ge **CV-deling**

7 Principles of data protection law

Protecting personal data:

- Lawfulness, fairness and transparency
- Purpose limitation
- Data minimisation
- Accuracy
- Storage limitation
- Integrity and confidentiality
- Accountability

The requirements in the GDPR framework are based on the 7 principles – the core of GDPR.

• The key principles related to the processing of personal data are further described in GDPR Art. 5

EVERYTHING YOU NEED TO KNOW ABOUT

Don't store personal

data you do not need

anymore

Accountability

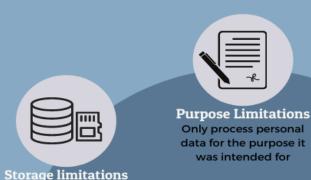

The data processor is

responsible for

complying with the

GDPR

7 GDPR DATA PROTECTION PRINCIPLES

Accuracy

Take "reasonable

measures" to have the

most accurate data possible

Lawfulness Having a legal basis, being transparent and acting in the person's best interest

GDPR

Data Minimization Only gather and keep the exact amount of data that is needed

Confidentiality

Only people who are processing the data should have access to it

Legal basis for processing personal data • Article 6 - GDPR defines the six lawful bases that data controllers can leverage for the processing of personal data.

 Legal basis 1: Informed consent (Art. 6(1)(a) – often used in research

What is Needed to Process Data?

- A "lawful basis" for doing so
- A "lawful basis" can be:
 - When required for a contract
 - When required for public interest
 - When required to comply with a law
 - When required to protect an individual's life
 - When required for the legitimate interests of a third party (no sensitive data)
 - When freely given consent for a specific purpose has been provided
- If sensitive data is being processed, explicit consent for those data elements is required.

What is Needed for Legally Effective Consent?

- Must be in clear and plain language, intelligible, and easily accessible
- Must be specific about the purpose of the data processing
- Must be distinguishable from other matters
- Must be given by a clear act or statement
- Must be an unambiguous indication
- Must fully inform the data subject
- Must be freely given

What is Data Processing?

Processing of data involves any and all of the following:

- Adapting
- Altering
- Collecting
- Combining
- Consulting
- Destroying
- Disclosing

- Erasing
- Organizing
- Recording
- Retrieving
- Storing
- Structuring
- Using

Recommendations from DPO

- Define the purpose of collecting and using personal data and know what the legal basis for processing is.
- Process personal data only with a legal basis
- Be transparent about how you process your data
- Act in line with the rights of data subjects Respondents, rights?
- Classification of what you are processing, and knowledge of storage tools, is important before collecting data.
- Good planning and familiarity with guides/intranet resources facilitate secure data management.
- Ensure protection of your data, wherever stored, minimise where you can and share under the right conditions
- Nettskjema is the primary data collection tool for surveys and audio recordings, up to sensitive data (red category).
- Remember to delete personal data after the intended purpose is fulfilled.
- Report deviations!
- Thank you for your attention!

Information security at UiS

Christian Sommer Senior Advisor Information Security, Section for Information Management

Information Security

- Protecting information and information systems (assets) through out the assets lifetime.
- We use three key principles:
 - Confidentiality
 - Integrity
 - Availability

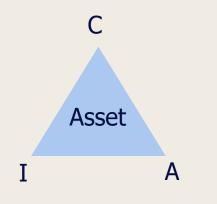

What is an information asset?

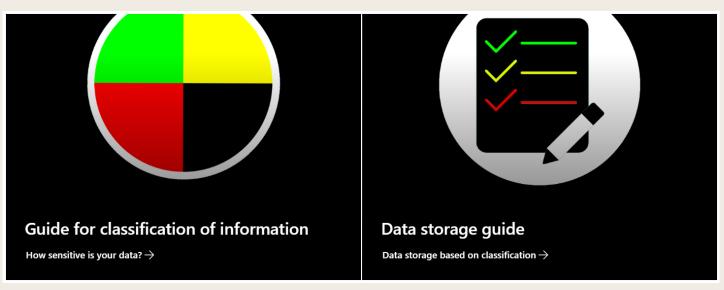

• Your research project

- Publications / Library books
- Insight private company
- Register data (SSB)
- Questionnaires
- Interview / recordings
- Identifier key

Classification- and storage guide

- <u>Classification guide</u> what data are you handling?
- <u>Storage guide</u> find appropriate tools for collecting, processing and storing.

Classification

- O Open (Green) Websites, publications.
- O Internal (Yellow) Non-published material, personal data (name, phone number, e-mail)
- O Confidential (Red) Special categories of personal data (race, religion, health data etc.)
- O Strictly confidential (Black) Data with high commercial value, data with high impact on individual or group.

System	Godkjent for	Krav til lagring av fortrolig data
UiS-driftet maskin	• • •	Røde data kan lagres på maskin med fullkryptert disk. Røde data skal ikke flyttes til lagringsområder som ikke er godkjent for det.
UiS OneDrive	• • •	Lagring av røde data i OneDrive krever at dokumenter og filer settes til følsomhet <i>fortrolig</i> . Se <u>veiledning for lagring av røde data i Teams og OneDrive.</u> Bruk OneDrive til filer som ikke krever samhandling. For samhandling, bruk Teams. OneDrive kan brukes for deling med eksterne. Dette gjelder også hvis følsomhet <i>fortrolig</i> er satt på dokumentet, men da må <u>noen enkle steg følges</u> av den eksterne.
UiS Teams		Røde data i Teams krever at teamet er satt som fortrolig. I tillegg må alle filer som inneholder rød data være merket med følsomhet <i>fortrolig</i> . Se <u>veiledning for lagring av røde data i Teams og OneDrive.</u> Bruk Teams når du skal samarbeide og dele filer med andre. For dokumenter og filer som er tiltenkt deg selv, bruk OneDrive.
