Norwegian Ministry
of Petroleum and Energy

Minister's message to petroleum students: «You are the future!»

On February 21st the Minister of Petroleum and Energy, Terje Søviknes, visited the University of Stavanger and The National IOR Centre of Norway. He chose to highlight the importance of educating brilliant minds to the oil and gas industry.

Del artikkel:

The message of minister Søviknes to the students when he visited UiS the last time.

Thank you for your attention!
